

STRUCTURAL HEALTH ASSESSMENT
OF TIMBER STRUCTURES

Proceedings of the International Conference on Structural Health Assessment
of Timber Structures, SHATIS'15
9–11 September 2015 Wrocław, Poland

STRUCTURAL HEALTH ASSESSMENT OF TIMBER STRUCTURES

Editors

Jerzy Jasieńko and Tomasz Nowak

*Faculty of Civil Engineering
Wrocław University of Technology, Poland*

Volume 1

Dolnośląskie Wydawnictwo Edukacyjne
Poland

Editorial Collaboration

Łukasz Bednarz
Wojciech Puła

Cover design

Daria Sułek-Chlebowska

DTP

PREFACE

The SHATIS 2015 International Conference is the third edition of the event devoted to the historical and new build wooden constructions.

The main scope is to focus on the development of testing, theoretical and numerical analysis, technologies and materials, conservation, sustainable methodologies in protection of existing timber constructions – monumental, historical and built using glue-Laminated wood, saving human and cultural heritage losses. The SHATIS 2015 is the great occasion for the dissemination of the experiences and the results obtained on scientific and technical fields of interests by scientists and experts, young researchers, Ph.D. students, designers, producers from all continents, from all over the World. The scientific, design and technical contribution will be collected in the main topics:

1. Timber Structures on UNESCO LIST – GLOBAL HERITAGE – values, problems, preservation
2. Historical Timber Structures
3. Composite Structures including wood
4. Joints and Fasteners
5. Non-destructive Testing and Assessment
6. Repair, Strengthening and Monitoring Technology
7. Modernization, Reuse of Timber Structures

with:

- Monitoring and Diagnosis
- Case Studies
- Experimental Analysis, Testing
- Theoretical and Numerical Analysis
- Strengthening and conservation
- Traditional and innovative materials and techniques
- Modernization, reuse
- Interaction strategies, conservatory doctrines, principles, recommendations

LET'S MAKE TOGETHER THE SHATIS PROJECT THE MAIN PLATFORM FOR ANALYSYS, PROTECTION AND CONSERVATION OF TIMBER STRUCTURES IN THE WORLD!

Jerzy Jasieńko
Tomasz Nowak

ORGANIZERS

Faculty of Civil Engineering
Wrocław University of Technology

National Heritage Board of Poland

Palaces and Gardens of Jelenia Gora Valley Foundation

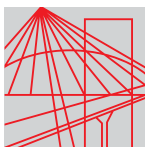

CO ORGANIZERS AND SUPPORTING INSTITUTIONS

City of Wrocław

Association of Monument Conservators
Stowarzyszenie Konserwatorów Zabytków

Lower Silesian Chamber of Civil Engineers

Keim

Rothoblaas

ORGANIZATION

HONORARY COMMITTEE

Piotr Żuchowski
*Secretary of State in the Ministry of Culture and National Heritage,
General Conservator of Monuments of Poland*

Rafał Dutkiewicz
President of the City of Wrocław

Tadeusz Więckowski
Rector of Wrocław University of Technology

STEERING COMMITTEE

Jerzy Jasieńko, Wrocław University of Technology, Poland
Maurizio Piazza, University of Trento, Italy
Paulo Lourenco, University of Minho, Portugal
Jose Saporiti Machado, National Laboratory for Civil Engineering, Portugal

SCIENTIFIC COMMITTEE

Jerzy Jasieńko, Wrocław University of Technology, Poland – Chairman
Tomasz Nowak, Wrocław University of Technology, Poland – V-ce Chairman
Łukasz Bednarz, Wrocław University of Technology, Poland – Scientific Secretary
Ronald Anthony, Anthony & Associates Inc., USA
Francisco Arriaga, Technical University of Madrid, Spain
Görün Arun, Yildiz Technical University, Istanbul, Turkey
Koenraad van Balen, Catholic University of Leuven, Belgium
Paolo del Bianco, Romualdo del Bianco Foundation, Italy
Jan Bień, Wrocław University of Technology, Poland
Luigia Binda, Polytechnic University of Milan, Italy
Carlo Blasi, University of Parma, Italy
Hans Joachim Blass, Karlsruhe Institute of Technology, Germany
Antonio Borri, University of Perugia, Italy
Jorge Branco, University of Minho, Portugal
Janusz Brol, Silesian University of Technology, Poland
Carlito Calil Junior, Sao Paulo University, Brazil
Win Clark, Wellington & Wairarapa, New Zealand
Marco Corradi, Northumbria University at Newcastle, United Kingdom
Keith Crews, University of Technology Sydney, Australia
Giorgio Croci, University of Rome, Italy
Roberto Crocetti, Lund University, Sweden
Helena Pires Cruz, National Laboratory for Civil Engineering, Portugal
Clara Bertolini Cestari, Polytechnic University of Turin, Italy
Dina D' Ayala, University College London, United Kingdom
Thierry Descamps, University of Mons, Belgium

Philipp Dietsch, Technische Universität München, Germany
Ferenc Divos, University of West Hungary, Hungary
Milos Drdácáký, Institute Theoretical and Applied Mechanics, Czech Republic
Steffen Franke, Bern University of Applied Sciences, Switzerland
Alfredo Gerales Dias, University of Coimbra, Portugal
Ezio Giuriani, University of Brescia, Italy
Kiril Gramatkov, St Cyril & Methodius University, Macedonia
Zhongwei Guan, University of Liverpool, United Kingdom
Ryszard Guzenda, Poznan University of Life Sciences, Poland
Alen Harapin, University of Split, Croatia
Richard Harris, University of Bath, United Kingdom
Annette Harte, National University of Ireland, Ireland
Marin Hasan, University of Zagreb, Croatia
Minjuan He, Tongji University, China
Eugeniusz Hotała, Lower Silesian Chamber of Civil Engineers, Poland
Nobuo Ito, So-net Entertainment Corporation, Japan
Andrzej Kadłuczka, Cracow University of Technology, Poland
Bohumil Kasal, WKI Fraunhofer / TU Braunschweig, Germany
Stephen Kelley, Columbia University, USA
Robert Kliger, Chalmers University of Technology, Sweden
Adam Krajewski, Warsaw University of Life Sciences, Poland
Sławomir Krzosek, Warsaw University of Life Sciences, Poland
Jan-Willem van de Kuilen, TU Munich / TU Delft, Netherlands
Jochen Kurz, Fraunhofer Institute for Nondestructive Testing, Germany
Kazimierz Kuśnierz, Cracow University of Technology, Poland
Arkadiusz Kwiecień, Cracow University of Technology, Poland
Adrian Leijten, Eindhoven University of Technology, Netherlands
Paulo Lourenco, University of Minho, Portugal
Jose Saporiti Machado, National Laboratory for Civil Engineering, Portugal
Kjell A. Malo, Norwegian University of Science and Technology, Norway
Federico Mazzolani, University of Naples, Italy
Czesław Miedziałowski, Białystok University of Technology, Poland
Claudio Modena, University of Padua, Italy
Marius Mosoarca, Technical University of Timisoara, Romania
Piotr Napierała, Association of Monument Conservators, Poland
